

Industrial Visits – Computer Science & Engineering/BCA

At Aravali College of Engineering and Management, industrial visits are conducted regularly to provide students with practical exposure, industry insights, and real-world understanding of modern technologies.

1. Industrial Visit to TCS iON

Date: October 2025

Students explored enterprise IT solutions, cloud-based platforms, and large-scale industry workflows, gaining insights into professional IT environments.

2. Industrial Visit to NIELIT

Date: February 2026

The visit focused on cybersecurity practices, digital initiatives, and government IT infrastructure, enhancing students' understanding of public sector technologies.

3. Industrial Visit to DUCAT

Date: March 2026

Students gained exposure to software development practices, coding standards, and real-time project environments, strengthening their practical knowledge.
